Statement of Amanda Ryncarz

I am extremely pleased with the court's decision to grant our dismissal of the lawsuit that Matthew filed against me. The court's dismissing this case is not only a victory for myself but for women across the country who are currently suffering the same types of injustices. I believe that women should be able to express their feelings about the men in their lives without the fear of being sued. For the past year, this case has been a nightmare for myself and I am relieved to say that it is finally over.

Much gratitude goes out to my attorneys Gloria Allred, Mariann Wang and our legal team for their unending dedication and support with this case. Knowing that I had their team on my side to help me fight this case was very empowering. Now, I look forward to putting this chapter of my life to rest.
