Statement of Stacey Blitzsch

I never posted any statements about Matthew on liarscheatersrus.com and I told him that prior to his filing the lawsuit against me.

For many years, Matthew has repeatedly used the court system to fight me on issues regarding the custody of our son.

He is an attorney, I am not. I am a single mom. Matthew has forced me into court repeatedly over issues which I believe could have been resolved without spending time and money, which could have been better spent on our child.

I have had enough. I am here because I want people to know the truth and I am asking the court to dismiss the lawsuit filed against me.
