Statement of Rose Trevis

On March 4, 2016, my partner and I entered Hawleywood's Barber Shop in Long Beach, CA. After I entered, I was greeted and denied services due to my gender and on account of what the barbers perceived to be my gender. I was continuously reminded that this particular business refuses to service women.

I felt humiliated, discriminated against and frowned upon. I was dumbfounded and appalled that this type of behavior continues to exist and hope that we can bring an end to this absurd type of discrimination. Thank You
