### **Statement of Nancy Beals**

I recently bought my daughter Kayla a ticket to Universal Studio's Halloween Horror Nights. Kayla was very excited and looking forward to a fun filled evening with her friends. She told me that a lot of kids from her school would be attending.

What happened that night was horrific. A female Universal Studios employee called her a whore, a slut, and a hooker on a microphone in front of a crowd while everyone laughed. This attack on my young daughter's character and reputation was irresponsible and hurtful to her and to me as her mother.

I thought that this was a safe and child friendly event. I never expected that Universal Studios would authorize such language to be used to attack my 13 year old daughter.
