Statement of Natalie Khawam

My sister Jill and I aren't just twins, we're best friends -- we're literally inseparable.

During my darkest times, Jill held the light for me -- she and my brother in law, Dr. Kelley, took me in with my son when we needed refuge and protection. Jill is the kindest, most generous person I know. We played varsity tennis together. She played net and I served. We also played softball together. She was the catcher and I pitched.

We love to cook together. I usually bake and she likes to sauté. We used to study together. I loved math. She loved science and she excelled at chemistry.

We love to play piano and play chess and our children also love to play piano together, cook together and play sports with each other as well. Jill has loved and supported me through the years and I plan to love and support her unconditionally.

I contacted Gloria Allred in order to assist me and to help guide me through what is a very difficult time for me and my family. I appreciate her support and advice through this very challenging time. I look forward to the day when I am able to answer everyone's questions and explain what really happened in this matter.
