### **Statement of Stacey Blitsch**

I am happy for the victory and the dismissal of this lawsuit. I was very concerned when I was sued, knowing I was innocent. First and foremost, I am thankful to have strong and brilliant attorneys, Gloria Allred and Mariann Wang fight this case on my behalf.

I thank them for supporting our fight for women to have the right to express and publish the truth. I truly feel women should be able to express themselves about men who have lied and cheated on them. We as Americans should be proud of our laws which give us the right to express our opinions without censorship or restraint and which allows us to enjoy freedom of speech.

I hope this case will be a wake up call for people everywhere to just be honest. Tell the truth and treat people the way you want to be treated.
