

I want to thank Assemblywoman Irene Bustamante Adams, Kristy Oriol from Nevada Network Against Domestic Violence, Daniel Dreitzer the Director of the Rape Crisis Center of Las Vegas, and the assemblymen, women and senators who voted unanimously for our Bill, AB212. Also, all of the government agencies that testified in support for our bill including but not limited to the:

- Clark County Police Department
- Nye County Police Department
- Washoe County Sheriffs Department
- The Nevada District Attorney's Association
- Nevada Sheriffs and Chiefs Association
- Attorney General's Office
- The Progressive Leadership Alliance of Nevada
- The National Association of Social Workers

And Gloria Allred, whose guidance, has been priceless.

In 1989 my wife believes that she was drugged and assaulted; we chose not to allow this horrible incident to dictate her future. We realized that the 4 year statute of limitations was only hindering victims from seeking justice.

By extending the statute of limitations to 20 years we have given victims the much needed extra time to report his or her assault, I urge each and every victim of sexual assault and rape to look into the statute of limitations for their State. Work with your local assemblyman or woman to extend or abolish these laws. With a single idea.... You can make change.... A Change that will help others..... A Change that helps to strengthen your community.... A Change that will allow a victims voice to be heard.

To my son Simon and my daughter Sabrina, mommy and daddy are done. And we're coming home. Thank you.
