**Statement of Shantel Jackson**

There was a point in my relationship with Floyd that I thought we would be together forever. I loved him so much and I made sure that I took care of him the best way I knew how.

I tried my best to make our relationship work by compromising and going to relationship counseling, but I finally realized that there was no hope and our relationship could not continue.

I loved Floyd deeply but he continued to disappoint and intentionally hurt me.

I have been embarrassed and humiliated more than I can ever imagine by Floyd whom I once called my best friend and fiancé.

I have tried everything that I could and I have given Floyd every opportunity to do the right thing. Unfortunately, he has refused every opportunity to make things right. It is with a heavy heart that I finally realized that the only way to set the record straight and to achieve justice for what he has done to me is through the filing of this lawsuit.
